TERMS AND GENERAL INFORMATION

When Ordering: Please use the proper part numbers found in our catalog. We will not be responsible for mistakes made if we are not given the part number of the product that you are looking for when you place your order.

Substitutions: We reserve the right to substitute a product for another product of equal quality.

Back Orders: If a back ordered part comes in to us within 24 hours of shipping your order, we will ship the parts to you automatically. If your parts come in more than 24 hours after your order, we will call you to see if you still want them.

Credit Term: If you would like to apply for an open account with us, we require three (3) trade references, the name and address of your bank and your Sales Tax ID Number. Our terms are Net 10 Days or Net 30 Days depending upon the responses given to us by your trade references. If you place an order before credit is extended to you, it must be paid in full by a credit card before we ship the order. We reserve the right to refuse credit.

Returns: Before returning any product, you must contact one of our Customer Service Reps to obtain a Return Authorization number (RA #). You must prepay the freight charges for returning products unless the reason for the return is due to a mistake on our end or the product is defective.
Special order parts, welded axles, and materials cut to length are non-returnable for any reason.
All returns made within 30 days may incur a restocking fee of no more than 15%. Returns made after 30 days may incur a restocking fee of no more than 25%. Please include a copy of your invoice (with the RA # written on it) in the package you are returning. Failure to do so may result in a delay issuing you credit or sending replacement parts.

Special Orders: All special orders must be paid for in full before we place the order with our vendor. Once we place the order with our vendor, there will be no refunds issued if you cancel the order or refuse delivery.

Order Minimum: Our minimum for orders is \$10.00. Any order less than that will be billed \$10.00.

Prices: All prices are subject to change without notice. See below for instructions on obtaining current pricing for all available products.

Pricing: For current pricing, please visit:

<http://www.franklintrailerparts.com/pricing>

- 1) Enter your customer number
- 2) Enter your billing zip code
- 3) Enter the part number you want the current price for and click "Search"

***Please type the website address directly into your address bar*

Please do not type the website into Google, or another search engine, as it will may not direct you to the proper page

E-MAIL YOUR ORDER TO US AT ORDER@FRANKLINTRAILERS.COM

Please include your company name and customer number in the e-mail to ensure that the order is shipped to the proper address.

HUBS

W/ ALL PARTS

ALL HUBS ARE COMPLETE WITH BEARINGS, SEALS AND CAPS.

ALL HUBS ARE STUDDED

DETERMINING BOLT CIRCLE

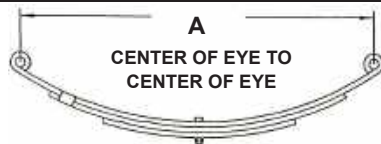

Hubs with **ODD** Number of Studs
Measure from the back of the top stud (12 o'clock), skip one stud, and measure to the center of the next stud (5 o'clock)

Hubs with **EVEN** Number of Studs
Measure from the center of the top stud (12 o'clock) to the center of the bottom stud (6 o'clock)

Auto-Lock Couplers

EXCLUSIVE COUPLER DESIGN AUTOMATICALLY LOCKS WHEN LOWERED ONTO THE CORRECT SIZE HITCH BALL

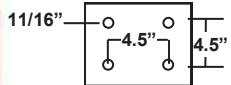

BALL MUST BE THE CORRECT SIZE

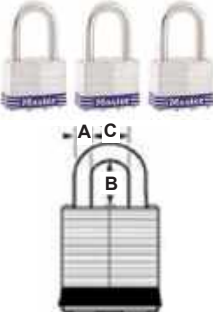

NORMALLY, THE EZ LATCH COUPLER IS IN ITS LOCKED POSITION. THERE'S NO NEED TO LIFT THE LEVER TO HOOK UP

WHEN THE COUPLER IS BEING LOWERED OVER THE HITCH BALL THE LEVER LIFTS TO ALLOW THE COUPLER SOCKET TO RECEIVE THE HITCH BALL

ONCE THE HITCH BALL IS SEATED IN THE COUPLER, THE LATCH SNAPS TO ITS LOCKED POSITION

	BALL SIZE	TONGUE WIDTH	TRLR GVW

BRAKE HOSES

NEW SOLUTIONS FOR OLD PROBLEMS

1. STAINLESS STEEL FLARE ELIMINATES TENDENCY FOR BRASS FLARES TO SPLIT DURING TIGHTENING
2. OPEN AREA PROVIDES ROOM FOR LINE WENCHES
3. ALL KODIAK FITTINGS HAVE 40% MORE THREAD ENGAGEMENT THAN INDUSTRY STANDARD FITTINGS FOR STRONGER MORE LEAK PROOF CONNECTIONS

MASTER CYLINDER SOLENOIDS (REVERSE LOCKOUT SOLENOIDS)

ORDER F11253 (HAS 11250 ON PART)

Reverse Flow Solenoid
Required for Disc Brakes
(Can be used for Drum Brakes)

This "reverse flow" solenoid has three openings for brake fluid travel. Actuators must be pre-drilled and tapped to accept the return line from the solenoid. All Tie Down Brand actuators accept this "reverse flow" solenoid.

Verify that your actuator has the return port before buying this style of solenoid. Connecting the "reverse flow" solenoid is similar to the back flow, however an additional tube is connected to the return port in the master cylinder. The electrical wire is connected to the reverse lights of the tow vehicle. The "reverse flow" solenoid has a third port that redirects the fluid to the master cylinder that would be going to the trailer brakes. When the reverse lights on the tow vehicle activate the solenoid, the valve inside the solenoid redirects the brake fluid to return to the master cylinder.

An advantage with the "reverse flow" solenoid is that the issue with backing up on an incline is not a problem unlike the "stop flow" style solenoid. Should the "reverse flow" solenoid become clogged or malfunction, the worst is that no pressure goes to the trailer brakes, whereas if a "stop flow" solenoid malfunctions or becomes clogged, it can hold pressure in the brakes causing them to drag.

BACKING UP A HILL WILL NOT ENGAGE THE BRAKES

81020

Stop Flow Solenoid
Required for Disc Brakes
(Can be used for Drum Brakes)
(CAN BE USED ON OTHER BRANDS)

The "stop flow" solenoid is the most common type of solenoid. It can be installed on almost any hydraulic actuator. The "stop flow" solenoid is installed at the master cylinder and the brake line is connected to the rear of solenoid. The electrical wire from the solenoid is connected to the reverse lights of the tow vehicle. When the tow vehicle is put in reverse, the solenoid is activated and it stops the flow of hydraulic fluid to the brakes, allowing the tow vehicle and trailer to back up.

There is a disadvantage when you back up the vehicle and trailer up a hill. If the vehicle and trailer stop on an incline and the tow vehicle is in park or out of the reverse position, the solenoid allows pressure to continue to engage the trailer brakes due to the trailer "leaning" into the tow vehicle.

If backing up is continued, the solenoid will lock in the pressure to the brakes, which will cause your brakes to remain engaged while the trailer continues to "lean" into the tow vehicle.

W/ ADAPTER FOR OLDER "DICO" MASTER CYLINDERS
BACKING UP A HILL MAY ENGAGE THE BRAKES

F11286

Reverse Flow Solenoid
Required for Disc Brakes
(Can be used for Drum Brakes)

These are built all into Tie Down Brand disc brake actuators made after 9/1/12

BACKING UP A HILL WILL NOT ENGAGE THE BRAKES

F47488

Stop Flow Solenoid
Required for Disc Brakes (SAME TYPE AS ABOVE LESS ADAPTER)
(Can be used for Drum Brakes)

Installs into the master cylinder
Does not have the adapter for the older Dico master cylinders

BACKING UP A HILL MAY ENGAGE THE BRAKES

ORDER K71755

(REFERENCE 34500)

- A distinct, easy-to-read LCD display with multiple screen color options
- "Up-Front" controls provide easy access to all P3 features
- Easy to understand diagnostics show output current, battery/brake/output voltage
- Select electric over hydraulic or electric trailer brake mode
- Screen information display in English, French, or Spanish
- "The Original Boost" feature allows for customized braking

51170

2-8 BRAKES | 1-4 AXLES

**ACTUAL
SIZE
1 7/8"**

SPECTRUM™ BRAKE CONTROLLER

- Triple-axis, motion-sensing accelerometer for highly responsive, smooth stops
- Features two installation options: drill mount or surface adhesive mount
- User-selectable power output and trailer brake light activation
- Automatic leveling and calibration eliminate setup requirements
- Equipped with a quick plug for easy, plug-and-play installation
- Built-in reverse-polarity and short-circuit protection
- Compatible with low-volt, PWM, ABS, cruise control and electric over hydraulic
- Tow vehicle 'low voltage' and trailer disconnect indicators

PROPORTIONAL BLUETOOTH BRAKE CONTROLS

51516

20127

51520

51516 Universal Trailer Brake Controller Harness with Pigtails

- Compatible with Any CURT brake controller
- Splices into a vehicle for quick plug brake controller connection
- Wire colors match standard brake controller harnesses
- Includes 24" of 12-gauge wire for flexible installation
- Slit-loom sleeve keeps wires contained and protected
- (Not necessary on Echo)

20127 Universal Trailer Brake Controller Harness with Pigtails.

- Compatible With Tekonsha, Draw - Tite, REESE & TOWPOWER brake controllers
- Splices into a vehicle for quick plug brake controller connection
- Wire colors match standard brake controller harnesses
- Includes 12" of wire for flexible installation

51520 Adapter

- Allows you to use the Tekonsha - REESE Harness w/CURT controllers

F51180

2-4 BRAKES | 1-2 AXLES

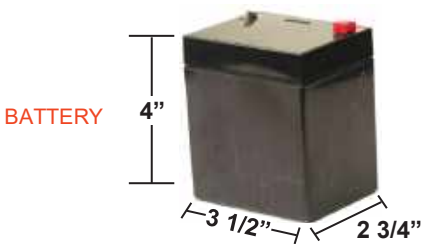

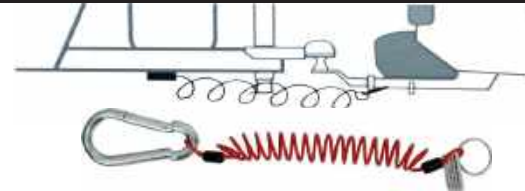

Echo® mobile

- Wireless, portable design allows for easy transfer from one vehicle to another
- Zero-tool, plug-and-play install between vehicle-trailer 7-way connectors
- Potted circuit board is sealed off from the elements for lasting durability
- Retention strap and locking tab help keep Echo® firmly installed into 7-way
- Stores multiple vehicle-trailer profiles
- Replacement strap available (#51186)

HEAVY DUTY PVC GUIDE ONS

48"/60" PVC guides your boat on safely and gives you visual aid when backing up your empty trailer. Bright orange end caps on PVC guides give you a brighter target.

48" - **F86103** - NO LIGHTS

60" - **F86119** - NO LIGHTS

SOLD IN PAIRS

PVC GUIDE ONS

Adapts to all tube and channel trailer frames. Galvanized for long lasting protection. Bright orange end caps on PVC guides give you a brighter target when loading your boat onto your trailer.

48" high with 16" of side adjustment. All hardware included.

F86105

SOLD IN PAIRS

CARPETED BUNK BOARD GUIDE ONS

The 2x4 bunk boards are carpeted. Bunk placement if mounted above frame is 19". Outside of the frame there is 5" - 11" of side movement. Mounting hardware fits frames 2" & 3" wide up to 4" high. All hardware included.

F86123

SOLD IN PAIRS

PIPELIGHT GUIDE ON LIGHTS

Never submersed. Lights are mounted into 2" PVC guide ons. As the trailer gets submersed, you will have better visibility.

Comes with 10' wire leads.

Lights are compatible with **F86103** & **F86119**

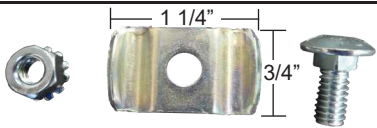

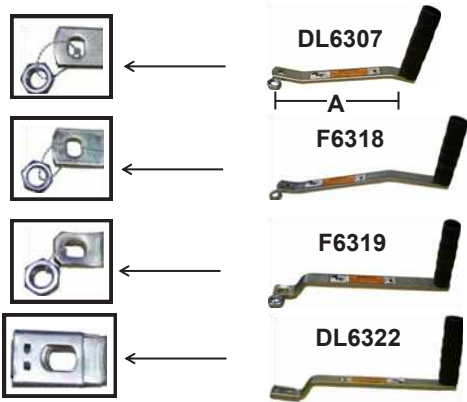

F1019
